1

At a glance

As an admin you keep the records right from day to day: you add and update people, set up periods and holidays, check and export attendance, and run the year-end promotion in a school. Device set-up, settings, and accounts belong to your super admin.

You can

- ✓ Add, edit, import, and deactivate members and staff
- ✓ Manage periods and holidays (or closed days)
- ✓ View, filter, and export attendance
- ✓ Run year-end promotion (schools)
- ✓ In a shop: clients, sales, catalog, loyalty, reports
- ✓ See the account list and change your own password

You can't

- ✗ Set up, rename, or delete scanners
- ✗ Change institution settings or labels
- ✗ Create, edit, or delete accounts
- ✗ Change anyone else's password
- ✗ Enrol fingerprints — unless your account is tied to one unit (section 5)

TIP

This guide covers what your **role** can do. Read it alongside the guide for your kind of organisation — the School, Office, or Shop manual — which explains how the system fits your day.

1.1 Two kinds of admin account

Your super admin chose one of these when creating your account:

Account	What you see and manage
Whole institution	Every unit's people and records. This is the usual kind.
Tied to one unit	Only that unit's people and records — and you can enrol fingerprints on its scanner. A padlock chip on the Attendance page shows which unit.

1.2 Words used in this guide

Your institution may have renamed these under Settings, so your screens might say *Student*, *Form*, *Class*, or *Term* instead.

Word	Meaning	A school might say
Member	A person whose attendance is recorded	Student
Staff	People on the second roster, if your institution keeps one	Teacher
Group	A set of units	Form, Grade, or Year
Unit	One place people scan — each has its own scanner	Class
Period	A stretch of time you report on	Term
Active	Included in attendance and absence marking	—

2 Signing in and finding your way

- 1 Open the dashboard address your super admin gave you.
- 2 Enter your email and password, then press **Sign in**.

The first page is **Overview**: today's present and absent counts, the attendance rate, and the most recent scans. The menu on the left groups everything else under **Records**, **Shop** (shops only), and **Manage**, and shows only pages your role can open.

On a phone, the menu is a bar along the bottom — **Overview**, **Attendance**, your roster, and **More**. Press **Install app** in the menu to add the dashboard to your home screen; on an iPhone use Safari's Share icon, then **Add to Home Screen**.

NOTE

The dashboard signs you out after **10 minutes** without activity, and when you close the browser. Pages refresh by themselves as new scans arrive.

3 Members and staff

Go to **Members** (or **Staff** for the second roster — both work the same way).

NAME	ID	CLASS	FINGERPRINTS	STATUS	ACTIONS
Abena Asante	RHS-S004	Block A Corridor		Active	Edit Deactivate
Adjoa Sarpong	RHS-S018	Staff Room Door		Active	Edit Deactivate
Adwoa Darko	RHS-S006	Staff Room Door		Active	Edit Deactivate
Afua Yeboah	RHS-S020	Main Gate Entrance		Active	Edit Deactivate
Akua Agyei	RHS-S008	Main Gate Entrance		Active	Edit Deactivate
Ama Mensah	RHS-S001	Block A Corridor		Active	Edit Deactivate
Araba Danso	RHS-S014	Main Gate Entrance		Active	Edit Deactivate
Efua Baah	RHS-S012	Staff Room Door		Active	Edit Deactivate
Esi Osei	RHS-S010	Block A Corridor		Active	Edit Deactivate
Fifi Frimpong	RHS-S009	Staff Room Door		Active	Edit Deactivate

Figure 1 The Members page, here renamed Students. Screenshots use demo data in dark mode.

3.1 Adding one person

- 1 Press **Add member**.
- 2 Enter their **Full name** and **ID** — the school or staff number you already use.
- 3 Choose their **Unit**. The list shows each scanner as group and unit, e.g. *Form 2 Science*.
- 4 Press **Add member**.

The next screen offers to enrol fingerprints straight away. If your account is tied to their unit you can do it there (section 5); otherwise press **Done** and ask your super admin to enrol them.

3.2 Importing a spreadsheet

- 1 Press **Import CSV**, then download the template.
- 2 Fill in one row per person with the columns `sid` (ID), `fullname`, and the unit.
- 3 Write the unit the way the dashboard shows it, e.g. *Form 2 Science*. The unit name alone also works when it's unique.
- 4 Upload the file. A preview marks each row as ready or explains the problem — a missing field, or a unit it can't find — before anything is saved.
- 5 Confirm.

NOTE

Imported people start Inactive, because they have no fingerprints yet. Activate each person once they're enrolled — only active people are counted in attendance and absence marking.

3.3 Editing someone

Press the edit icon on their row to change the name, ID, or unit. The **Fingerprints** panel shows which sensor slots hold their fingers.

3.4 Leavers

Press **Deactivate** on their row. They stop being marked absent from that day, and their full history stays available in reports and exports. Press **Activate** to bring them back.

There is no delete button for people — deactivating keeps the history, which you'll want for reports.

4 Periods and holidays

The page is called **Academic** in a school, **Periods & Holidays** in an office, and **Closed Days** in a shop (holidays only).

4.1 Periods

- 1 Press **Add term** (the button uses your institution's word for a period).
- 2 Enter the **Term** name, the **Year** — e.g. *2026* or *2025/2026* — and the start and end dates.
- 3 Save, then press **Set active** on its row.

Keep exactly one period active. Each scan is filed under whichever period was active at the time, and reports default to it.

4.2 Holidays

- 1 Open the **Holidays** tab and press **Add holiday**.
- 2 Enter a **Label** and a **Start date**. Add an **End date** for a break of several days.
- 3 Tick **Repeats every year** for fixed dates such as Independence Day. Leave it unticked for dates that move, such as Easter.
- 4 Save.

Nobody is marked absent on a holiday. Weekends don't need adding — your super admin sets which weekdays count under **Days tracked** in Settings.

**TIP**

Add the whole period's holidays when you create the period. A missed holiday produces a full roster of false absences that someone then has to explain.

5 Enrolling fingerprints (unit-tied admins)

If your account is tied to one unit, **Enrollment** appears in your menu and you can register or delete fingerprints on that unit's scanner. Otherwise your super admin does this.

- 1 Press **New job**.
- 2 Choose **Register**, the person, and **Finger 1** or **Finger 2**. The sensor slot is filled in for you.
- 3 Queue the job, then have the person at the scanner.

- 4 They press the finger when the screen says **PRESS 1/2**, lift it at **REMOVE**, and press the same finger again at **PRESS 2/2**.
- 5 **ENROLLED** on the screen and **Completed** on the dashboard mean it worked.

You can also do this from the person's edit screen: the **Fingerprints** panel has an enrol button for an empty finger and **Delete** for a stored one. The Super Administrator Manual covers failed and stuck jobs in detail.

6 Attendance

Go to **Attendance**.

DATE	STUDENT / TEACHER	ID	CLASS	TERM	TIME IN	TIME OUT	STATUS
Tue, Sep 8, 2026	Afua Yeboah	RHS-S020	Main Gate Entrance	Term 1 2026/2027	08:22 Late	—	Present
Tue, Sep 8, 2026	Kofi Owusu	RHS-S002	Main Gate Entrance	Term 1 2026/2027	08:20 Late	—	Present
Tue, Sep 8, 2026	Maame Amoah	RHS-S016	Block A Corridor	Term 1 2026/2027	08:18 Late	—	Present
Tue, Sep 8, 2026	Kwadwo Anane	RHS-T01	Staff Room Door	Term 1 2026/2027	08:16 Late	—	Present
Tue, Sep 8, 2026	Nana Tetteh	RHS-S019	Block A Corridor	Term 1 2026/2027	08:14 Late	—	Present
Tue, Sep 8, 2026	Ama Mensah	RHS-S001	Block A Corridor	Term 1 2026/2027	08:11 Late	—	Present
Tue, Sep 8, 2026	Comfort Ofori	RHS-T02	Staff Room Door	Term 1 2026/2027	08:08 Late	—	Present
Tue, Sep 8, 2026	Yaw Boateng	RHS-S003	Staff Room Door	Term 1 2026/2027	08:00	—	Present

Figure 2 The Attendance page with its filters and tabs.

Tab	What it shows
Records	One row per person per day: date, name, ID, unit, period, time or time in / time out, and status.
Summary	Present and absent totals, and the attendance percentage, per unit and period.
By member	Each person's days present and absent, their rate, and when they were last seen.

Narrow the list with **From / To**, **Period**, **Member type**, **Status**, and the people and unit pickers. If your institution flags punctuality, late arrivals carry a **Late** badge and early departures an **Early** badge.

To export, set your filters and press **Export CSV**. The file opens in Excel or Google Sheets and contains exactly what the filters show.

NOTE

Nobody marks absences by hand. Each evening the system adds an **Absent** record for every active person who didn't scan, skipping holidays and untracked weekdays. Scans saved by an offline scanner upload later and correct those records.

7 Year-end promotion (schools)

Promotion moves every active student up one group — *Form 1* to *Form 2*, and so on. Students in the final group are deactivated instead.

- 1 Go to **Promotion** and read the preview: each card shows how many students move from one group to the next.
- 2 Check the warning list. A student is skipped if there's no scanner for their next group with the same unit name — ask your super admin to set it up first.
- 3 Press **Apply promotion**, read the summary, and press **Confirm**.

IMPORTANT

Promotion can't be undone. **Export the year's attendance first.** Promoted students' fingerprint links are cleared, so each one must be **enrolled again** on their new class's scanner before they can scan.

The School Manual explains how the dashboard works out the order of groups.

8 Shop duties

In a shop your menu also has **Clients**, **Sales**, **Catalog**, **Loyalty**, and **Reports**. The Shop Manual covers them in full:

- **Clients** — your customers, keyed by a unique phone number, with visit history and loyalty progress
- **Sales** — record what was sold, to whom, and by which staff member
- **Catalog** — products and services, with prices and product stock
- **Loyalty** — reward rules, and issuing rewards to clients who have earned them
- **Reports** — takings, top clients, revenue per staff member, best sellers, visits, low stock, and rewards

9 Accounts

Accounts lists everyone who can sign in to your institution's dashboard. Search by email or filter by role.

To change **your own** password, press the key icon on your row and enter a new one of at least 8 characters. Everything else on this page — new accounts, role changes, other people's passwords — is done by your super admin.

10 The scanner, at a glance

Recorded. May say **TIME IN** or **TIME OUT**.

Saved offline; uploads when the internet returns.

Not counted — holiday, untracked day, or duplicate.

Not recognised. Try again, finger flat.

No person linked to that finger on this scanner.

No internet. 3 scans waiting to upload.

Light	Meaning
Solid blue	Ready and online
Solid purple	Ready, but no WiFi
Green flash	Scan accepted
Red flash	Not recognised
Solid yellow	Waiting for a finger during enrollment
Breathing yellow	Waiting to be set up
Breathing red	Installing an update — do not unplug

11 Getting help

Problem	Who to ask
Someone needs fingerprints enrolled	Your super admin (or you, if tied to their unit)
A scanner isn't working or shows an odd screen	Your super admin
A new account, a role change, or someone else's password	Your super admin
A setting or label needs changing	Your super admin
A whole day shows everyone absent	Check holidays first, then ask your super admin to check the scanner
